Online learning has both advantages and disadvantages, the benefits far outweigh the drawbacks. \_\_\_\_\_, most of the disadvantages can be reduced through careful planning. \_\_\_\_\_ most obvious disadvantage of online classes is the lack of face to face interaction. Teachers cannot gauge their students' nonverbal reactions. \_\_\_\_\_, students miss the teacher's non-verbal cues: tone of voice, pauses, and gestures. They cannot spontaneously ask a question or volunteer an answer. They \_\_\_\_\_ have less opportunity to get acquainted with their fellow students.

\_\_\_\_\_ computers can accommodate physical limitations with text to speech, enlargeable print, foot or mouth-operated controls and other adaptations, many students with disabilities have much better access to information than in traditional classrooms. \_\_\_\_\_, slower students or language learners who need to hear material more than once can read or listen repeatedly and learn at their own pace.

b. Develop a conversation between you and your Class Coordinator requesting him to let you know the modalities of attending the online seminar to be conducted in your department.

A fact that draws our attention is that, according to his position in life, an extravagant man is either admired or loathed. A successful business man does nothing to increase his popularity by being prudent with his money. A person who is wealthy is expected to lead a luxurious life and to be lavish with his hospitality. If he is not so, he is considered mean, and his reputation in business may even suffer in consequence. The paradox remains that he had not been careful with his money in the first place; he would never have achieved his present wealth.

Among the low income group, a different set of values exists. The young clerk, who makes his wife a present of a new dress when he has not paid his house rent, is condemned as extravagant. Carefulness with money to the point of meanness is applauded as a virtue. Nothing in his life is considered more worthy than paying his bills. The ideal wife for such a man separates her housekeeping money into joyless little piles – so much for rent, for food, for the children's shoes, she is able to face the milkman with equanimity every month satisfied with her economizing ways, and never knows the guilt of buying something she can't really afford.

As for myself, I fall neither of these categories. If I have money to spare I can be extravagant, but when, as is usually the case, I am hard up and then I am the meanest man imaginable.
